Free 4thFest Concert

The Oak Ridge Boys headline 4thFest concert
Sunday, July 3 | 8:00 pm
S.T. Morrison Park | Free

On July 3rd, sing along to songs like “Hard to be Cool (In a Minivan)” or “Elvira,” with bass singer Sterban’s unforgettable “oom papa oom papa mau mau” refrain.

The Oak Ridge Boys blend country, gospel, pop, and rockabilly. They’ve recorded with Paul Simon, George Jones, Brenda Lee, Johnny Cash, Roy Rogers, Billy Ray Cyrus, Bill Monroe, Ray Charles, and Merle Haggard...and they’re coming to Coralville.

The Oak Ridge Boys have one of the most distinctive sounds in the music industry. Their four-part harmonies and upbeat songs have spawned dozens of country hits and garnered a host of awards and accolades. When they step on stage, the Oaks bring four decades of charted singles and 50 years of tradition to a high-energy stage show widely acknowledged as among the most exciting anywhere.

Their string of hits includes “Bobbie Sue,” “Dream On,” “Thank God For Kids,” “American Made,” “I Guess It Never Hurts To Hurt Sometimes,” “Fancy Free,” “Gonna Take A Lot Of River,” and many others.

The group has scored 12 gold, three platinum, and one double platinum album—plus one double platinum single—and has more than a dozen national Number One singles and over 30 Top Ten hits.

Citizen-soldiers by day and rock band by night, The Sidewinders open the 4thFest stage with an unforgettable mix of modern pop and classic rock.

The Sidewinders is an energized nine-piece band whose covers of current pop hits and rock classics connect with a range of audiences. Featuring vocals backed by electric guitars, keyboards, percussion, and a three-piece horn ensemble, the band has performed at the Iowa State Fair, festivals throughout Iowa, and military events. They were such a crowd favorite at 4thFest 2015 that we asked them back for a second year in a row.

From “Radioactive” and “All About That Bass” to “Carry On Wayward Son” and “Come Together,” The Sidewinders—a musical performance team under the 34th Army Band—is made up of citizen soldiers whose civilian occupations include teachers, salespersons, corporate management, engineers, and students. The 34th Army Band, Iowa Army National Guard, is stationed in Fairfield, Iowa, and is the only military band in the state of Iowa.

The Sidewinders return to 4thFest
Sunday, July 3 | 6:30 pm
S.T. Morrison Park | Free

WE HAVE AN APP FOR THAT
City of Coralville launches free mobile app

The City of Coralville’s free mobile app for Android and Apple devices is the newest way that residents, businesses, and visitors can connect with the City. Report an issue, pay your utility bill, find your bus, navigate to a park, get City information—and much more—on-the-go.

GPS INTEGRATION
GPS integration delivers convenience and accuracy when citizens use the app to report an issue or get directions to City parks and buildings. With the app’s “Report a Concern” feature, citizens can quickly let the City know about issues like a pothole or stormwater problem, make a nuisance complaint, or provide on-the-go feedback. The app uses the mobile device’s GPS to identify the location of the problem, and users can take and submit a photo with the camera on their mobile device. GPS integration is also included with the mobile “Parks and Facilities” feature to map directions to a City recreation area or building by vehicle, bike, or foot based on the user’s present location.

DEVELOPMENT
The mobile app was developed with the City’s website partner, CivicPlus. By working seamlessly with the City’s responsive website, the free app provides another way the community can access consistent information across multiple platforms. The interface for online services and features frequently used by citizens, like the City’s online Request Tracker and news and events, have been upgraded for the app.

DOWNLOAD
The free City of Coralville app for mobile devices is available in the App Store and Google Play. To download, go to www.coralville.org/app, or search for Coralville Iowa or City of Coralville in your app store.

See a quick video about our new app at www.youtube.com/watch?v=YudIR-0zGlS
Old Town Hall Rental Information

Location: 407 5th Street
Group size: Ideal for 30-40 people
Price: $50

Kitchenette (optional): $25
To rent or learn more, contact:
Johnson County Historical Society
Ph: 319.351.5738
admin@johnsoncountyhistory.org

About Old Town Hall

Coralville’s Old Town Hall, a brick building constructed by pioneer residents in the 1880s, has seen many uses in its 130-plus years. Built as a church, town hall, and community gathering space, the building has been the site of meetings, church services, social events, businesses, and at one time even housed a jail. It has twice been saved from demolition and has occupied three different addresses in Coralville.

A New Chapter

In May 2014, one door closed and another opened for Old Town Hall when it was relocated to 407 5th Street, across from the 107G Schoolhouse. The move from its prior location on 2nd Avenue made way for construction of the mixed-use Old Town development while providing an opportunity to renew the historic building for public use.

Old Town Hall is available to rent for small gatherings of 30 to 40 people. Tables and chairs are included with the rental, and a kitchenette equipped with a refrigerator and microwave are available for an additional fee.

Since Old Town Hall’s most recent relocation, Roger Gwinup Construction Company was contracted to repair plaster and windows, replace doors, refinish floors and wainscoting, add lighting and air conditioning, paint the interior, connect utilities, extend gutters and sidewalks, provide building access with stairs and a lift, and insulate the crawl space. A public open house will be hosted after landscaping and seeding are complete.

REOPENING DOORS

Old Town Hall, owned and recently renewed by the City of Coralville, is now available to rent through a partnership with the Johnson County Historical Society.

Reimagining stormwater management in the right-of-way

In Coralville, the approach to managing stormwater has shifted from a system designed to move dirty water from the street as quickly as possible to a system that holds, infiltrates, cleans, and cools stormwater.

Sending stormwater to the road right-of-way is not a new concept. While the traditional curb and gutter system used by cities has been an effective way to move stormwater off of streets, it contributes to water quality concerns, flooding, and streambank erosion in local water bodies. When stormwater flows down the street to the curb, along the gutter, and into the storm drain, it carries pollutants that have accumulated on the road and nearby surfaces to the nearest water body without any form of treatment.

Stormwater Quality Infrastructure

Throughout Coralville, practices like bio-retention cells, bioswales, stormwater planters, and porous pavement systems are being used to help prevent flooding and to treat stormwater pollutants before entering local waterways. Stormwater quality infrastructure is becoming part of the design processes similar to the placement of any other utility within the right-of-way and, in Coralville, is considered a necessary component to the stormwater system. Installing green stormwater practices versus large pipe infrastructure can have a similar cost estimate and, in some cases, reduce project costs.

In 2015, Coralville completed three roadway projects designed with stormwater quality systems within the right-of-way to help improve the quality and reduce the quantity of water in our local waterways.
Rendering of what the mature plantings will look like in a Coral Ridge Avenue bio-retention cell.

**Iowa River Landing**

In the Iowa River Landing, street construction projects include roads, lighting, sidewalks, and stormwater practices. Stormwater planters, interconnected rock chambers, and porous paver walkways within the right-of-way provide water quality benefits to the entire length and width of right-of-way.

**5th Street**

Street reconstruction projects offer an opportunity to manage stormwater differently the second time around. When 5th Street was reconstructed, the project included ten blocks of street improvements, water mains and sanitary upgrades, utility improvements, and the addition of water quality improvements within the right-of-way like stormwater planters and underground rock chambers. The underground rock chambers are hydrologically connected to the planter boxes so that water flows underground between the stormwater planters and the rock chambers, increasing the amount of space available to meet the City’s design storm requirements. This was the first project within Coralville to include a forebay designed into the planter box specifications. The forebay picks up sediment, trash, and other forms of debris before it gets into the planter box, making maintenance easier.

**Coral Ridge Avenue**

Improvements to Coral Ridge Avenue widened a heavily used roadway from two lanes to four, added a pedestrian/bike trail with an underground tunnel, and included streetscaping—but that’s not all. As part of the project, the City installed five bioswales and two bio-retention cells within the right-of-way to manage stormwater. When precipitation runs off this half-mile stretch of roadway, the bioswales and bio-retention cells infiltrate not only the water from a typical rain storm, but also from bigger storms of up to 2.4” of rainfall in a 24-hour period—the type of rainfall that damages streams and rivers by causing erosion. The system along Coral Ridge Avenue was designed with overflows that bypass the system in an extreme rain event larger than a 2.4” storm.

Each bioswale and bio-retention cell is outfitted with monitoring devices located at its inlet and outlet. The University of Iowa, along with the Iowa Department of Agriculture and Land Stewardship, monitors the system for flow, chloride, and other data.

**Learn More**

While these projects are on a large scale, green stormwater management isn’t limited to City or commercial construction projects; homeowners can implement stormwater best management practices (BMPs) on their property to reduce the amount or improve the quality of stormwater runoff from their yard. To learn more, visit [www.coralville.org/stormwater](http://www.coralville.org/stormwater).

Adapted from “Street Rights-of-Way Reimagined,” written by the City for the APWA Reporter, February 2016, p. 38.
Highway 6 Street Lighting Upgrade

All overhead and sidewalk lights will be replaced on Highway 6 from Clear Creek Bridge to Hawkins Drive. New aluminum poles, which will replace the existing steel poles, will be the same style as recently completed projects on 1st Avenue, 5th Street, and the Iowa River Landing. This project will convert all street lights from high pressure sodium to LED which will greatly reduce power consumption and maintenance. This project is anticipated to start in August and be completed by September 2016. This project is estimated to cost $350,000.

Street Projects

8th Street Reconstruction | 8th Street will be reconstructed with new concrete paving and storm sewer improvements from Morrison Creek to the Coralville Recreation Center parking lot entrance. The project is scheduled to be constructed between early July and the start of Iowa City Community School District fall 2016 classes. The estimated project cost of $190,000 is funded by the City’s portion of the recent increase in State Fuel Taxes.

10th Street Overlay | The existing asphalt overlay on 10th Street from 12th to 20th Avenues will be milled off and replaced with a new 3” asphalt overlay during a two-week period between late May and late June. The street will remain open with flaggers to direct traffic. Residents on 10th Street can expect restricted access to their driveways when the hot mix asphalt is applied and rolled until the asphalt material has cured enough to drive on—which will be the same day. The estimated project cost of $145,000 is funded by the City’s portion of the recent increase in the State Fuel Tax.

Compact Roundabout to Receive Corner Treatments

Paver aprons, which are concrete bands with brick pavers, will be constructed on the back curb of all four corners at the compact roundabout at 12th Avenue and Holiday Road. The addition of the corner treatments will provide a permanent surface for the areas where larger vehicles occasionally track over the existing curbs. The project, which is expected to last less than a month, is scheduled to be constructed in June 2016 after the Iowa City Community School District is out of session. Detours will be necessary during construction, but the east-west connection along Holiday Road will remain open to traffic. The estimated cost for this project is $25,000.

Duct Bank Construction

Two projects will allow existing private utility companies to relocate their facilities—either overhead or underground—to common duct banks in anticipation of future construction.

1st Avenue Duct Bank | Along 1st Avenue, a common underground duct bank will be constructed between 6th and 9th Streets in anticipation of the complete reconstruction of 1st Avenue from 6th to 9th Streets. The duct bank construction is anticipated to last from June to August 2016, and the private utility companies will then relocate their facilities to the new duct bank system by the end of 2016. The estimated construction cost for the duct bank project is $600,000. The street improvements project will begin in 2017.

10th Avenue Duct Bank | A common underground duct bank will be constructed along 10th Avenue between the West Bank driveway (north of Highway G) to 7th Street, and along 5th Street from west of 9th Avenue to west of 10th Avenue, in anticipation of the future construction of a roundabout at the 10th Avenue/5th Street intersection. The duct bank is scheduled to be constructed in the fall of 2016 with utility company conversion in 2017. The construction schedule of the roundabout will be determined once funding is secured.
Sewer & Solid Waste Rates Change July 1

The rate changes were approved by the City Council following a review and public hearing for the budget for the fiscal year that begins on July 1.

<table>
<thead>
<tr>
<th></th>
<th>Until June 30, 2016</th>
<th>Effective July 1, 2016</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sewer (first 200 cubic feet)</td>
<td>$8.85</td>
<td>$9.85</td>
</tr>
<tr>
<td>Sewer (each additional 100 cubic feet)</td>
<td>$2.92</td>
<td>$3.18</td>
</tr>
<tr>
<td>Solid Waste (base fee)</td>
<td>$12.00</td>
<td>$13.00</td>
</tr>
<tr>
<td>Solid Waste (65 gal. container)</td>
<td>$7.00 (no change)</td>
<td></td>
</tr>
</tbody>
</table>

The sewer rate increase allows the City to continue to build resources to finance a significant planned sewer treatment plant project, designed to accommodate Coralville’s growth for the coming 20 years. This project will be permanently financed in Fiscal Year 2020.

The solid waste rate increase covers the cost to collect and dispose of your trash and process your recycling. The increase is due in part to higher landfill tipping fees (the charges to dispose of waste at the landfill) and a decrease in the market value of materials collected in the City’s recycling program.

---

Water Report Available Online

Coralville’s annual Consumer Confidence Report from the Coralville Water Department is available at www.coralville.org/WaterReport. Copies are available by request at utilitybilling@coralville.org or 319.248.1770.

Primary Election

Satellite voting at the Coralville Public Library, 1401 5th Street
Saturday, June 4
10:00 am-2:00 pm

On Election Day, Tuesday, June 7, voters may cast their ballot at their registered precinct or at the Johnson County Auditor’s office. For more information, visit www.jcauditor.com or call 319.356.6004.
SUMMER READING PROGRAM KICKOFF
Tuesday, May 24 | 5:00-6:30 pm
All ages can participate in the summer reading programs at the Coralville Public Library! To join in the fun:
- Register at the kickoff at the Coralville Public Library on May 24
- Sign up at the Library or [www.coralvillepubliclibrary.org](http://www.coralvillepubliclibrary.org) beginning May 25

Thanks to our Summer Reading Program sponsors: Hills Bank and Trust, the Friends of the Coralville Public Library, and many local businesses.

ADULT DISCUSSION GROUPS

Multiple copies of each book are available for checkout and are, whenever possible, available in large print, audiobook, and e-book editions.

Stage on the Page
Drama Discussion Group
Last Thursday of the month | 10:00 am
Discuss drama’s place in literature!

June 30
Father Comes Home From the Wars
by Suzan-Lori Parks
Offered freedom if he joins his master in the ranks of the Confederacy, a slave must choose whether to leave the woman and people he loves.

LitFlicks
Wednesday, June 8 | 6:00 pm
A book-based film series for adults. Fresh popcorn is provided.

The Adventures of Robin Hood
Recount the life and adventures of Robin Hood, who lived as an outlaw in Sherwood Forest, dedicated to the fight against tyranny. This 1938 film stars Errol Flynn and Olivia de Havilland. Based on the book The Merry Adventures of Robin Hood by Howard Pyle.

Novel Conversations
at the Coralville Public Library
Third Thursday of the month | 7:00 pm
Focused on both classic novels and recent fiction and nonfiction.

July 21
Anna Karenina
by Leo Tolstoy
Anna, in a loveless marriage, leaves her husband for an officer. Considered one of the world’s greatest novels, this is a beloved drama of personal conflict and social scandal.

It’s a Mystery
Second Wednesday of the month | 10:00 am
Crime fiction book discussion group with coffee and doughnuts

June 8 | Claire de Witt and the City of the Dead
by Sara Gran

July 13 | Whose Body? by Dorothy Sayers

August 10 | The Red Parts by Maggie Nelson

Summer 2016
@CoralPubLibrary www.facebook.com/coralvillepubliclibrary

Adult Summer Reading Program Summer Fun Movie
Wednesday, June 15 | 6:00 pm
Sarring Chevy Chase, Bill Murray, and Rodney Dangerfield; directed by Harold Ramis. Refreshments, including fresh popcorn, will be provided.
Children and Family Programs

For babies through 6th graders*

Children under Age 3 & Caregivers
Wee Read
Thursdays, 10:15 or 11:15 am (program is repeated)
Parents, grandparents, and caregivers share rhymes, songs, finger plays, and books with their little ones. Approximately 20 to 25 minutes.

Preschool & Kindergarten
Tuesdays, 10:30 am
We will have a combination of stories, songs, crafts, or other fun activities. Approximately 1 hour.

Grades 1-4
Wednesdays, 1:00 pm
Programs include stories, crafts, and other activities. Approximately 1 hour.

Grades 5-6
Thursdays, 2:00 pm
Activities include crafts, games, and—of course—reading! Approximately 1 hour.

All Ages | Family Storytime
Saturdays, 10:30 am
Families listen to stories, music, and poems, and participate in literacy activities together. Approximately 30 minutes.

All Ages | Family Night at the Library
June 13, July 18, & August 8 | 6:30 pm
Family nights are for all ages and involve crafts, games, stories, music—or any combination! Approximately 1 hour.

*grades children will enter in August

---

adult summer reading program

It’s a race to the finish for our Adult Summer Reading Program!
- Read six books (audio books and ebooks count) of your choice by August 1 to be entered for a chance to win prizes including a tablet, book store gift certificates, and Caffe Crema gift certificates.
- The ever-popular “patron picks” will be on display all summer long, plus more fun activities throughout the summer.

It’s great to get your whole family reading, so get on your marks!

---

YOUTH SUMMER READING PROGRAM

As athletes around the world gear up for the Summer Olympics, we will exercise our minds and bodies at the Library. Celebrate fitness, health, and wellness by becoming champion readers, enjoying play and exercise, and joining us for guest performances.

See www.coralvillepubliclibrary.org for more details.

YOUTH PRIZES
- Pre-readers through sixth graders earn a t-shirt from Hills Bank & Trust by completing a Summer Reading Program activity sheet.
- Babies and toddlers who complete a Wee Read activity sheet receive a board book from Hills Bank.
- Fifth and sixth graders are eligible to enter additional prize drawings.

---

TEEN SUMMER READING PROGRAM

7TH-12TH GRADERS

Join us for an action-packed summer at the Library!
- Activities at 2:00 pm on Mondays
- Movies, games, scavenger hunts, LittleBits, crafts, kickboxing, yoga, Zumba, contests, and other activities throughout the week
- Earn prizes by reading and participating in Library events
- See www.coralvillepubliclibrary.org/teens/srp for the Teen Summer Reading Program calendar and special events.

SUMMER 2016
THE DOG DAYS OF SUMMER

Is it safe to leave my dog in the car?

Taking your dog with you in the car may be enjoyable, but when it comes to summer heat, there are some important things to consider before taking your four-legged friend on car trips:

1. **Check the weather.** Before leaving home, look up the high temperatures forecasted for your area, and pay attention to weather warnings of extreme temperatures. If the weather conditions are questionable, be safe and leave your dog at home.

2. **Think it through for Fido.** If you will be frequently leaving your dog unattended in the vehicle for an extended period of time, reconsider including your pet on runs for errands.

3. **Keep the car cool.** If you find that you have to leave your vehicle unattended, even momentarily, keep the car running and turn on the air conditioner.

**Vehicles heat up quickly.** On sunny days, even with the windows cracked open, the temperature inside a car on an 85 degree day can climb to 102°F in 10 minutes, and reach 120°F in 30 minutes. (Ref. Animal Protection Institute)

4. **Know what’s safe.** A dog can withstand a body temperature of 107 to 108 degrees only for a very short time before suffering from brain damage and potentially death. Closed cars interfere with the dog’s normal cooling process of panting, so they are unable to maintain normal body temperature.

5. **Look out for other pets.** If you observe a dog in a vehicle on a hot day and the car is not running, the windows are shut, and the owner is not accessible, call Animal Control at 319.248.1800 and stand by for assistance.

---

S.T. Morrison Park | 9:00 pm

Watch a free movie under the stars!

**Big Hero 6** (PG)

---

**FARMERS’ MARKET**

Mondays

Once a week, the Coralville Farmers’ Market brings fresh baked goods, locally grown produce, farm fresh eggs, flowers, jams and preserves, local honey, wine, handmade arts and crafts, and jewelry to the heart of Coralville!

**2016 Market Season**

- **Days:** Mondays, rain or shine
- **Dates:** May 2 – October 3
- **Time:** 5:00-7:00 pm
- **Location:** Coralville Community Aquatic Center parking lot, 1513 7th Street
  (Next to S.T. Morrison Park)
- **Note:** Closed May 30 (Memorial Day), July 4 (Independence Day), and September 5 (Labor Day)

**Market Giveaway**

Visit the Market on the third Monday of the month for a chance to win a basket filled with goods donated by Market vendors! The drawing is free—simply fill out the slip and visit the vendors, then stay for the drawing at approximately 5:30 pm.
Tuesday, August 2 is a great night to gather with neighbors.

NATIONAL NIGHT OUT

Whether you know your neighbors or not, National Night Out is one night a year for neighbors to connect while strengthening ties with local law enforcement. On Tuesday evening, August 2, Coralville neighborhoods are invited to take part in the 33rd annual National Night Out.

The Coralville Police Department invites neighborhoods to get together and host block parties on August 2. The block parties give neighbors a chance to meet through simple potlucks, backyard barbecues, or a neighborhood event that involves music or kids’ activities. Neighborhoods are encouraged to host a party in a way that best suits their neighborhood. Representatives from the Coralville Police Department, Fire Department, and City Council will attempt to visit each registered party.

National Night Out is a way for neighbors to connect and communicate a message of unity between neighbors and police. Stronger neighborhood ties can build community partnerships and create watchful eyes in neighborhoods, which help to promote crime prevention. Millions of people and thousands of communities from all 50 states, U.S. territories, Canadian cities, and military bases are expected to participate worldwide on August 2.

Register your neighborhood block party and get planning tips at www.coralville.org/NationalNightOut. Registrations are due by July 29. For more information, contact the Coralville Police Department at 319.248.1800 or visit www.coralville.org/NationalNightOut.

Living next to a park is a benefit to many homes. Keep the following tips in mind to be a good neighbor to park space, woodlands, wetlands, and prairies:

- Do not place yard waste, tree debris, or trimming scraps on property other than your own. Putting waste on public property can be subject to fine. Damage to protected areas, such as wetlands, can involve not only the local jurisdiction, but also federal agencies.
- Know your property boundaries. Locate boundary pins and recheck them with every improvement project.
- It may look like you’re doing a favor by mowing beyond your property line, but you may be impacting native areas that are in place for stormwater runoff, forested areas for carbon reduction, or areas preserved for wildlife habitat.
- Using public property to park your boat, keep firewood, or place your play structure on is prohibited. Respect the adjoining property as a neighbor and treat accordingly.
Swinging on the greens is a great way to enjoy the summer at Brown Door Golf Club, Coralville’s public 18-hole golf course!
