Near the intersection of 12th Avenue and 5th Street—just a stone’s throw from where the Coralville Public Library now stands—once stood a towering screen at 1301 5th Street that peppered the memories of many long-time Coralvillians. The fan shape of the Coralville Drive-In Theatre lot can be seen in aerial photos from the 1950s, 1960s, and 1970s. When the theater came to town, as the story goes, investors named it the Iowa City Drive-In Theatre, and later it was known as the Coralville Drive-In.

Investors included Myron Blank of Central States Theatre Corporation, the largest operator of drive-in theaters in the country in the 1950s (Blank, who was credited with introducing popcorn as a movie theater snack in the 1930s, is known for his philanthropic efforts in Iowa including Blank Children’s Hospital and the Blank Park Zoo in Des Moines, and the Belin-Blank Center at the University of Iowa). Local lore about the theater includes showings of Patton, John Wayne movies, beach party genre flicks, and 1960s sci-fi—along with a memorable 4th of July fireworks display and specials including dusk-to-dawn night, hot dog night, dollar night, and carload night.

The theater closed in the early 1980s.
Planning for a pest

A Destructive Beetle
Emerald ash borer (EAB), a tree-killing pest of ash trees, was confirmed in Coralville in early 2017. The small, metallic green beetle, which is native to Asia, arrived in the eastern United States in 2002 before moving to the Midwest through firewood, sawmill logs, and nursery plants. As of April 2017, emerald ash borer has been confirmed in 45 counties in Iowa. Ash trees within fifteen miles of a confirmed EAB site are at risk. Ash trees typically die within two to five years of becoming infected with EAB. Following patterns in the Midwest, Coralville can expect to lose the majority of the ash tree population.

The Future of City-Owned Ash Trees
Coralville has approximately 300 City-owned ash trees in parks and streetscapes. In advance of emerald ash borer’s detection in Coralville, the Parks and Recreation department began looking at options to mitigate the economic, aesthetic, and environmental impact that communities in the eastern United States experienced with the destructive pest’s arrival. In 2015, the City began proactively planting alternative tree species to increase the diversification of Coralville’s “urban forest.” In 2016, the City embarked on a five-year period of removing 100 ash trees identified as declining or structurally poor. In April 2017, the City Council approved a five-year emerald ash borer response plan to mitigate the spread of emerald ash borer in public ash trees through ash tree treatments, removals, and replanting efforts to diversify Coralville’s urban forest.

Trunk injections to treat approximately 200 eligible City-owned ash trees in parks and streetscapes began in spring 2017. These sealed injections are a preventative measure to prolong the life of the ash tree; about 100 of these trees will be candidates for retreatment in 2019, and 50 in 2021. City-owned ash trees in parks and streetscapes will be monitored, and those that succumb to EAB will be removed, followed by planting new trees.

If You Have an Ash Tree
Property owners are responsible for removing or treating ash trees on their own property, including their yard. On private property, if the City identifies a dead, diseased, or dying tree, or if a tree poses a safety risk, the property owner is given notice to remove the tree at their expense. Planting a tree in the right of way requires a tree planting permit. If an ash tree was planted in the right of way with a permit, the City will remove the ash tree if it is dead, dying, or diseased. If an ash tree was planted in the right of way without a permit, the property owner will be notified that the ash tree must be removed at their own cost when it is dead, dying, or diseased.

Learn more
A copy of the City’s emerald ash borer response plan with a map of the City’s ash trees, as well as information about ash tree identification, emerald ash borer symptoms, removal of trees in the right of way, homeowner responsibilities, tree selection, and frequently asked questions are available at www.coralville.org/emeraldashborer.

Corvallis Responds to Emerald Ash Borer
Proactive strategy aims to lessen environmental impact; property owners encouraged to make plans for their ash trees

Sewer Rates Change July 1
The rate changes were approved by the City Council following a review and public hearing for the budget for the fiscal year that begins on July 1.

Monthly Sewer Rate

<table>
<thead>
<tr>
<th>$/cu. ft.</th>
<th>$/cu. ft.</th>
</tr>
</thead>
<tbody>
<tr>
<td>First 200 cubic feet</td>
<td>$9.85</td>
</tr>
<tr>
<td>Each additional 100 cubic feet</td>
<td>$3.18</td>
</tr>
</tbody>
</table>

The sewer rate increase allows the City to continue to build resources to finance a significant planned sewer treatment plant project, designed to accommodate Coralville’s growth for the coming 20 years. This project will be permanently financed in Fiscal Year 2020.

Choosing the Right Tree

Tree Selection

When choosing a new tree for your property, look for one that best fits the location where it will be planted. It’s important to put the right tree in the right place. Look at the location and its proximity to buildings, other trees, and overhead power lines, and always consider the mature size of the tree when selecting a tree and its site. It is also important to determine what type of soil is at the site where the tree will be planted and match the species tolerance to that particular soil type (clay, sandy, compacted, etc.). Make sure the nursery stock is healthy and the structure of the tree is balanced and roots are not girdled. When planting the tree, it is imperative to get the depth correct; the root flare should be at or slightly above ground level after planting.

Tree Diversification Tips

More than ever, tree species diversification is crucial to the health of the urban forest. With the onset of emerald ash borer, communities stand to lose a significant portion—if not all—of their ash trees. Along with ash trees, maples have been overused, compromising almost one third of the tree populations within communities along streetscapes and in neighborhood developments.

When selecting a tree, take a look around your neighborhood and choose a tree that is not overused. This will help reduce future loss of the urban canopy due to insects and disease, and is critical to future biodiversity efforts.

For more information, see “Selecting Trees for Your Yard” at www.coralville.org/emeraldashborer.

SUMMER 2017
You asked, we listened. The Sidewinders are back to open the 4thFest concert for the third year in a row. This energetic band performs current pop hits and rock classics, and features vocals backed by electric guitars, keyboards, percussion, and a three-piece horn ensemble. They have performed at the Iowa State Fair, festivals throughout Iowa, and military events.

The Sidewinders is a musical performance team under the 34th Army Band, which is made up of citizen soldiers whose civilian occupations include teachers, salespersons, corporate management, engineers, and students. The 34th Army Band, Iowa Army National Guard, is stationed in Fairfield, Iowa and is the only military band in the state.

The road to stardom for Tommy James began when his song “Hanky Panky” became the summer smash success of 1966 and his first million-seller. Today, with a music career that spans over 50 years, his legendary hits include “Crystal Blue Persuasion,” “I Think We’re Alone Now,” “Crimson and Clover,” “Draggin’ the Line,” “Mony, Mony,” and “Sweet Cherry Wine.”

With 23 gold records, 9 platinum albums, and over 100 million records sold worldwide—in addition to his 32 Billboard Hot 100 charting hits—many songs have been covered by artists around the world including Bruce Springsteen, Prince, R.E.M., Joan Jett and The Blackhearts, Billy Idol, Dolly Parton, Carlos Santana, and the Boston Pops. His music has been featured in national ad campaigns and prominent placements in movie and television soundtracks.

**Free Concert**

**The Sidewinders**

- **Monday, July 3 | 6:30 pm**
- **S.T. Morrison Park**
- **Free**

FIRE SAFETY TIPS FROM THE CORALVILLE FIRE DEPARTMENT

Outdoor Fire Pits
The only open burning allowed in Coralville are small wood fires in composted fire rings placed at least 50 feet away from buildings and combustible construction. Fire rings must be at least 1 foot deep, with a base 2 feet wide, and made of non-combustible materials. When using outdoor fire rings, follow these requirements:

• Never operate a fire ring within 10 feet of combustible construction, such as siding, deck railings, eaves, and overhanging branches.

• Keep children and pets away and maintain a safe distance from lawn games and foot traffic.

• Never grill within 10 feet of combustible construction, such as siding, deck railings, eaves, and overhanging branches.

• Only burn dry firewood.

• Never operate a fire ring within 10 feet of combustible construction, such as siding, deck railings, eaves, and overhanging branches.

• Keep at least one portable fire extinguisher or other approved fire extinguishing equipment, such as dirt, sand, water barrel, or garden hose, on site and available for immediate use. The fire extinguisher should have a minimum 4A rating.

• Using outdoor fire rings or fire pits is prohibited when the weather or other conditions make fires hazardous, objectionable because of smoke or odor.

When it comes to using a grill, charcoal burner, and other open-flame cooking devices, the following rules apply to apartments, condos, and town houses – and are good practice for the home family gatherings:

• Never grill within 10 feet of combustible construction, such as siding, deck railings, eaves, and overhanging branches.

• Keep children and pets away and maintain a safe distance from lawn games and foot traffic.

• Never discard hot coals into anything except a closed, non-combustible container.

• Never use a proper charcoal grill indoors or in an enclosed space, such as a garage or carport.

• Only burn dry firewood.

Remember! Weather grilling or using an outdoor fire pit:

• Keep children and pets away and maintain a safe distance from lawn games and foot traffic.

• Never throw hot coals into anything except a closed, non-combustible container.

• Never use a proper charcoal grill indoors or in an enclosed space, such as a garage or carport.

• Only burn dry firewood.

Discounts: For more information, call 319.248.1835.

For applications year-round for Coralville volunteer firefighters, all training is provided and a new Firefighter I certification Training in hazardous materials response, vehicle extraction, and confined space rescue is also available.

The Coralville Fire Department responds to approximately 2,000 calls per year, primarily volunteer staff operating out of two fire stations. The fire department provides training to become a Firefighter I certified and will pay for training to achieve EMT-B certification. Training in hazardous materials response, vehicle extraction, and confined space rescue is also available.

Submit completed applications to Nic Pruter at npruter@coralville.org or by mail at Coralville Fire Department 15th St. Coralville, Iowa 52241.

For more information, call 319.248.1835. Must be 18 to apply. The City of Coralville is an equal opportunity employer.

CO RALVILLE CO NNECTIO N

N ational N ight Out.

On Tuesday evening, A ugust 1, all Coralville neighborhoods are invited or not, N ational N ight Out is one W hether you know your neighbors connect while strengthening Coralville, and our community as a whole are alerted to.

A native of the area, K ron joined the Coralville Police Department as an officer in 1995 and has served as patrol sergeant, patrol lieutenant, administrative lieutenant, and interim police chief. He earned a master’s degree in criminal justice administration from Columbia Southern University and a bachelor’s degree in public administration from Upper Iowa University.

“W e have seen over the last twenty-seven years a number of changes and a number of challenges faced by young people growing up in our community. I believe in this mission.”

K ron remarked, “I am the first couple of weeks as police chief, the first time that has been our proposal. I have found it challenging and rewarding. I have seen the growth in the last twenty-seven years has been remarkable. It’s been an honor to serve the community.”

Shane Kron

Chief of Police

FOLLOWING A NATIONAL SEARCH, RECOMMENDATION BY CITY ADMINISTRATOR KELLY HAYWORTH, AND UNANIMOUS CITY COUNCIL APPROVAL, SHANE K RON W AS APPOINTED CORALVILLE CHIEF OF POLICE IN FEBRUARY 2017.

Hayworth noted, “The selection process made it clear that Shane’s dedication and commitment to public safety, Coralville, and our community as a whole are second to none.”

The Coralville Police Department invites neighborhoods to get together and host block parties on August 1. The block parties give neighbors a chance to meet each other, enjoy simple potlucks, backyard barbecues, driveway dinners, or neighborhood events with music or kids’ activities. Neighborhoods can host a party in a way that best suits their neighborhood. Representatives from the Coralville Police Department, Fire Department, and City Council will get out and visit as many neighborhood parties as they can.

National Night Out is an evening neighborhoods and all the other great things this city has to offer. Som etim es that means we write tickets and make arrests, but that has never been our primary objective,” said K ron. “What are we trying to do? As a result of these conversations we changed the mission of the Coralville Police Department to exceed the expectations of the community we have sworn to acknowledge and a reminder that we represent the City of Coralville. Police officers, firefighters, city staff, and other blood donors were among the more than 200 people who donated blood from 2:00-7:00 pm on Thursday, July 27.

Shane Kron successfully B arry Buddich, who retired in January 2017 after serving as chief of police since 1988. You can often find Chief K ron out and about engaging in one of his favorite activities: making balloon-animals for kids.

Donate blood on behalf of either the Coralville Police or Fire Department. The annual “Battle of the Badges” blood drive, hosted by the UI DeG owin B lood Center, is a friendly competition to see which department can get the most blood donations and save the most lives.

Donation can be made in the Coralville Police Department at 319.248.1800 or in the Coralville Police Department at 319.248.1800. Mike says, “I always thought donating blood was a good thing to do, and if it was made clear to me when I needed it. I feel it’s important to pass that on to someone else.”

Mike passed on the idea of encouraging citizens to brave the blood drive each year at the City of Coralville. Police officers, firefighters, city staff, and other blood donors have been addressing knowing how important it is to have these blood products available. You never know when a loved one will need them.

Mike joined the Coralville Police Department in 2001. When he was married in a motorcycle accident in 2005, Mike became one of the millions of people every year who require a blood transfusion. During his hospital stay, Mike underwent numerous surgeries and required a total of 22 units of packed red blood cells and four units of plasma.

Donation can be made in the Coralville Police Department at 319.248.1800 or in the Coralville Police Department at 319.248.1800. Mike says, “I always thought donating blood was a good thing to do, and if it was made clear to me when I needed it. I feel it’s important to pass that on to someone else.”

Mike passed on the idea of encouraging citizens to brave the blood drive each year at the City of Coralville. Police officers, firefighters, city staff, and other blood donors have been addressing knowing how important it is to have these blood products available. You never know when a loved one will need them.

Hello, Neighbor

The Coralville Police Department invites neighborhoods to get together and host block parties on August 1. The block parties give neighbors a chance to meet through simple potlucks, backyard barbecues, driveway dinners, or neighborhood events with music or kids’ activities. Neighborhoods can host a party in a way that best suits their neighborhood. Representatives from the Coralville Police Department, Fire Department, and City Planning will get out and visit as many registered parties as they can.

National Night Out is an evening for neighbors to connect and communicate a message of unity between neighbors and police. Stronger neighborhood ties can promote crime prevention. Millions of people from all 50 states, U.S. territories, Canadian cities, and military bases are expected to participate worldwide on August 1.

Shane Kron
Chief of Police

Following a national search, recommendation by city administrator Kelly Hayworth, and unanimous city council approval, Shane Kron was appointed Coralville chief of police in February 2017.

Hayworth noted, “The selection process made it clear that Shane’s dedication and commitment to public safety, Coralville citizens, and our community as a whole are second to none.”

A native of the area, Kron joined the Coralville Police Department as an officer in 1995 and has served as patrol sergeant, patrol lieutenant, administrative lieutenant, and interim police chief. He earned a master’s degree in criminal justice administration from Columbia Southern University and a bachelor’s degree in public administration from Upper Iowa University.

“The reason I came to Coralville twenty-seven years ago remains a personal honor to serve and protect the city that I call my home. I want to work in a community that respects each, and in return has as much to offer as we do. The city is home to a lot of great people and has a lot of positive things this city has to offer. Sometimes that means we write tickets and make people sad, that has never been our primary objective,” said Kron.

Kron noted, “I’m the first couple of weeks as police chief I spent a lot of time asking Coralville residents and my own staff, ‘What is expected of us? What are we trying to do here?’ As a result of these conversations we changed the mission of the Coralville Police Department to exceed the expectations of the community we have sworn to serve and protect. It’s a pretty simple mission, but it’s an admirable goal. I believe we represent the citizens of Coralville in all we do and pricing is really a collaborative effort of the entire community.”

“We don’t measure success here by the number of tickets we write or the arrests we make. We are trying to be more proactive and educate our citizens on how to protect themselves and others. We want to serve our community, but not at the expense of our citizens. We want to ensure everyone has the opportunity to safely enjoy their neighborhood and the other great things this city has to offer. Sometimes that means we write tickets and make people sad, that has never been our primary objective,” said Kron.

Shane Kron succeeds Barry Burkholder, who retired in January 2017 after serving as chief of police since 1988. You can often find Chief out and about and engaged in one of his favorite activities: making balloon-animals for kids.

Why Donate Blood?

Sergeant Mike Barney joined the Coralville Police Department in 2000. When he was reviewed in a recent accident in 2005, Mike became one of the millions of people every year who require a blood transfusion. During his hospital stay, Mike underwent numerous surgeries and required a total of 22 units of packed red blood cells and four units of platelets.

Mike says, “I always thought donating blood was a good thing to do, and I never did it until I had to. I have been in situations where we were unable to store as much blood as we do now. We need your help to keep blood available for those who need it.”

Mike-01A.jpg

Mike donates it by organizing three blood drives each year at the City of Coralville. Police officers, firefighters, city staff, and other blood donors mugs mugs with his donors knowing how important it is to have these blood products available.

You never know when a loved one will need them.
National Night Out is an evening when neighborhoods and police departments come together and host block parties on August 1. It’s all part of a typical National Night Out in Coralville.

The Coralville Police Department invites neighborhoods to get together and host block parties on August 1. “I don’t measure success here by the number of tickets we write or the number of arrests we make. What we are trying to do is build relationships and partner with the community — a collaborative effort of the entire community.”

“Do we measure success here by the number of tickets we write or the number of arrests we make? What we are trying to do is build relationships and partner with the community — a collaborative effort of the entire community.”

Shane Kron succeeds Barry Bedford, who retired in 2007. Bill has his 22 year career, Bill has held a number of positions with the Coralville Police Department in 1999 after four years as a deputy for Black Hawk County. He joined the Coralville Police Department in 1999 after four years as a deputy for Black Hawk County.

Sergeant Jeremy Sutton

Sergeant Mike Barney

LEUTENANT William Clarahan

Lt. Clarahan received his bachelor’s of science in criminal justice from Upper Iowa University in 2000. When he was involved in a motorcycle accident in 2005, Mike became one of the millions of people every year who require a blood transfusion. During his hospital stay, Mike underwent numerous surgeries and required a total of 22 units of packed red blood cells and platelets for his transfusions.

“I was so glad it was there when I needed it. Now I feel I need to donate blood to help others.”

CORALVILLE, IOWA 52241

• Using outdoor fireplaces or fire pits is prohibited when weather or other conditions make fires hazardous, or objectionable because of smoke or odor.

• Keep children and pets away and maintain a safe distance from live flames and hot coals.

• Never discard hot coals into anything except a closed, non-combustible container.

• Never use a propane or charcoal grill indoors or in an enclosed space, such as a garage or screened porch.

• Entrees to this rule apply when buildings, balconies, and decks are protected by an automatic sprinkler system, or when using a grill with an LP-gas container less than 1 quart (or 2.5 pounds).

For more information, contact the Coralville Fire Department at 319.248.1835.

The Coralville Fire Department responds for approximately 1,000 calls per year, using primarily volunteer staff operating out of two fire stations. The fire department provides training to become Firefighter I certified and will pay for training to achieve EMT-B certification. Training in hazardous materials response, vehicle extrication, and confined space rescue is also available.

Submit completed applications to Nic Pruter at pruter@coralville.org or by mail at Coralville Fire Department, Box 5244, Coralville, IA 52241.

For more information, call 319.248.1848.

Remember!

• When it comes to using a grill, charcoal burner, and other open-flame cooking devices, the following rules apply to apartments, condos, and town houses – and are good practice for ones and two family dwellings.

• Never grill within 10 feet of combustible construction, such as siding, deck Railings, eaves, and overhanging branches.

• Keep children and pets away and maintain a safe distance from live flames and hot coals.

• Never discard hot coals into anything except a closed, non-combustible container.

• Never use a propane or charcoal grill indoors or in an enclosed space, such as a garage or screened porch.

• Entrees to this rule apply when buildings, balconies, and decks are protected by an automatic sprinkler system, or when using a grill with an LP-gas container less than a 2.5 pounds.
FIRE SAFETY TIPS FROM THE CORALVILLE FIRE DEPARTMENT

Outdoor Fire Pits

The only open burning allowed in Coralville are those that take place on a person’s property, following the manufacturer’s instructions, or in built-in outdoor fireplaces approved by the Fire Chief. When using an open fire pit, always follow these requirements:

• Never operate an outdoor fireplace or fire pit within 10 feet of combustible construction, such as siding, deck railings, eaves, and overhanging branches.
• Never grill within 10 feet of combustible construction, such as siding, deck railings, eaves, and overhanging branches.
• Keep children and pets away and maintain a safe distance from live engines and hot tools.
• Never discard hot coals into anything except a closed, non-combustible container.
• Never use a propane or charcoal grill indoors or in an enclosed space, such as a garage or screened porch.

Remember!

• Keep children and pets away and maintain a safe distance from live engines and hot tools.
• Never discard hot coals into anything except a closed, non-combustible container.
• Never use a portable fire extinguisher or other approved extinguishing agent, such as dry, wet, soda, or water, on site and available immediately.
• Fire extinguishers should have a minimum 4-A rating.
• Using outdoor fireplaces or fire pits should be constantly attended by at least one adult while in use until the fire is extinguished. Fires can spread unexpectedly and quickly, so never leave a fire unattended.

For more information, contact the Coralville Fire Department at 319.248.1835.

If you want to give back to the community and gain hands-on experience in a fun, challenging, and rewarding atmosphere, consider volunteering for the Coralville Fire Department.

The only open burning allowed in Coralville is for recreational fires in purchased outdoor fire pits or in built-in outdoor fireplaces pre-approved by the Fire Chief. When using an outdoor fire pit, always follow these requirements:

• Never operate an outdoor fireplace or fire pit within 10 feet of combustible construction, such as siding, deck railings, eaves, and overhanging branches.
• Never grill within 10 feet of combustible construction, such as siding, deck railings, eaves, and overhanging branches.
• Keep children and pets away and maintain a safe distance from live engines and hot tools.
• Never discard hot coals into anything except a closed, non-combustible container.
• Never use a portable fire extinguisher or other approved extinguishing agent, such as dry, wet, soda, or water, on site and available immediately.

Remember!

• Keep children and pets away and maintain a safe distance from live engines and hot tools.
• Never discard hot coals into anything except a closed, non-combustible container.
• Never use a propane or charcoal grill indoors or in an enclosed space, such as a garage or screened porch.

For more information, contact the Coralville Fire Department at 319.248.1835.
Current & Planned Construction Projects

1. I-80 & I-380 interchange (Iowa DOT, 2019-2024)
2. I-380 & Forevergreen Rd. interchange (Iowa DOT, 2017-2019)
3. Forevergreen Rd. improvements (Iowa DOT/North Liberty, 2017-2019)
4. Coral Ridge Ave. duct bank (summer 2017), and Coral Ridge Ave. reconstruction - Oakdale Blvd. to Forevergreen Rd. (Coralville/Iowa DOT, 2018-2019)
5. Hwy 6 & Jones Blvd. traffic signal installation (Coralville/Iowa DOT, summer/fall 2017)
6. Coral Ridge Ave./I-80 westbound off-ramp, Commerce Dr. turn lane improvements (Iowa DOT, fall 2017)
7. Clear Creek Trail - Deer Creek Rd. to I-380 (Coralville/Iowa DOT, fall 2017-2018)
9. Northeast area water distribution improvements (Coralville, completion late summer 2017)
10. 1st Ave. duct bank, 6th St. to 9th St. (Coralville, summer 2017), and 1st Ave. reconstruction, 6th St. to 9th St. (Coralville, 2018-2019)
11. Iowa River Landing: E. 2nd Ave. & E. 7th St. reconstruction (south of E. 9th St.):
   - Sanitary sewer improvements (2017)
   - Earthwork for new road embankments (2017)
   - Paving E. 2nd Ave. and E. 7th St. (2018)
   - Two-level parking ramp on former Bandana’s property (2017)
   - Iowa Arena construction (begins late 2017)
12. Clear Creek south floodwall, phase 2 (Coralville, 2017) and storm water pump station modifications (completion fall 2017)
**SUMMER READING PROGRAM**

---

**Children and Family Programs**

**Children under Age 3 & Caregivers | Wee Read**
Thursday | 10:15 or 11:15 am
(Open for repeated) Young children and their caregivers share rhymes, songs, finger plays, and books. *Approximately 20 to 25 minutes.

**Preschool & Kindergarten**
Tuesday | 10:30 am
Stories, songs, crafts, special guests, or other fun activities. *Approximately 1 hour.

**Grades 1-4**
Wednesday | 1:00 pm
Stories, crafts, special guests, or other fun activities. *Approximately 1 hour.

**Grades 5 & 6**
Thursday | 2:00 pm
Crafts, games, tech fun, and, of course, reading! *Approximately 1 hour.

**Families**
Saturday | 10:30 am
Spend time together listening to stories, music, and poems. *Approximately 30 minutes.

**All Ages | Family Night at the Library**
Monday, June 12 & Aug. 14 | 6:30 pm
Monday, July 10 | 6:00 pm
Guests, crafts, games, stories—or any combination! *Approximately 1 hour.

(*grades children will enter in August)

---

**Adult Summer Reading Program**

**Free Movie**

**La La Land** (PG-13)
Wednesday, July 19 | 6:00 pm
Starring Ryan Gosling and Emma Stone. This new, original, and award-winning musical by Damien Chazelle takes place in contemporary Los Angeles but hearkens back to the glory days of the American movie musical.

---

**Summer Reading Kickoff**

Wednesday, May 31 | 5:00-6:30 pm
Join us this summer to create, learn, explore, and read during Build a Better World, May 31-July 31! Try new things, help the environment and your community, and enjoy outstanding guest performances at the library. See [www.coralvillepubliclibrary.org](http://www.coralvillepubliclibrary.org) for details, dates, times, and intended audience.

To participate:
- Register at the Summer Reading Program Kickoff on May 31
- Sign up at the Library or at [www.coralvillepubliclibrary.org](http://www.coralvillepubliclibrary.org) beginning June 1

Thanks to Hills Bank & Trust, the Friends of the Coralville Public Library, and many local businesses for sponsoring this program.

---

**Children’s Summer Reading Program**

For babies-6th graders

**Prizes**
After completing their Summer Reading program activity sheets, pre-readers through sixth graders earn a t-shirt from Hills Bank & Trust. Families completing the Wee Read program receive a board book. Fifth and sixth graders are eligible to enter additional prize drawings.

---

**Teen Summer Reading Program**

For 7th - 12th graders

Join us for an action-packed summer at the Coralville Public Library!

- Teen activities on Mondays at 2:00 pm
- Movies, games, scavenger hunts, LittleBits, crafts, writer’s workshop, volunteer opportunities, contests, and other activities throughout the week
- Earn prizes by reading and participating in Library events
- Visit [www.coralvillepubliclibrary.org/teens/srp](http://www.coralvillepubliclibrary.org/teens/srp) for the Teen Summer Reading Program calendar and special events.

---

**Adult Summer Reading Program**

Help build a better world this summer with books by participating in Adult Summer Reading!

- Read six books of your choice by August 1 (audio books and ebooks count) to be entered for a chance to win a tablet, book store gift certificates, and Caffe Crema gift certificates.
- Everyone who completes the program will get a coupon for a free book at the next Friends of the Library book sale.
- The ever-popular “patron picks” will be on display all summer long, plus more activities throughout the summer.
ADULT DISCUSSION GROUPS

ADULT PROGRAMS

It’s a Mystery
Second Wednesday of the month | 10:00 am
Crime fiction book discussion group with coffee and doughnuts.

June 14 | Except the Dying
by Maureen Jennings
A woman is discovered in the streets of turn of the century Toronto, and a detective must find out who she was, who killed her, and why someone would want her dead.

July 12 | Murder at the Roosevelt Hotel in Cedar Rapids
by Diane Fannon-Langton
A true crime account of the murder of Byron C. Hattman, who checked into the Roosevelt Hotel in December 1948 and never left—his body was discovered in his room two days later. Fannon-Langton writes a history column for the Cedar Rapids Gazette.

August 9 | City of the Lost
by Kelley Armstrong
When a homicide detective’s past comes back, she starts over in a place where no one knows her. But when the town experiences its first murder, she must take up her profession to keep herself—and everyone else—safe.

ENGLISH CLASSES

English as a Second Language instruction for foreign-born adults who are just starting to learn the language will continue at the Coralville Public Library this summer. These classes are offered through the Friendship Community with support from the Friends of the Coralville Public Library. Ask at the library for details.

FEED YOUR BODY, FEED YOUR MIND

Snacks are available this summer in the community resources room on weekends, June - August. Feeding your body is essential before feeding your mind at the library. Made possible with support from the Friends of the Coralville Public Library and the Coralville Community Food Pantry.

BUILD A BETTER COMMUNITY

Community Meal AT THE LIBRARY

Friday, June 9 | 5:30-7:30 pm
Free meal, live music, face painting, book walk, and family activities!
Gather with friends and neighbors for a free, locally-sourced, summertime meal on the library lawn, served by the Library and the Coralville Community Food Pantry. Bring a blanket or lawn chairs, picnic on the lawn with music by B.F. Burt, and enjoy extended library hours on June 9. In the event of bad weather, the meal and events will move into the library.

LITFLICKS

A book-based film series for adults. Fresh popcorn is provided.

Wednesday, June 21 | 6:00 pm
Arrival (PG-13)

Tuesday, July 11 | 6:00 pm
Crossfire (Unrated)
Starring Robert Ryan, Robert Mitchum, and Robert Young. Based on the book The Brick Foxhole by Richard Brooks.
UPCOMING EVENTS

MAY
22 Spring Dance Recital
Presented by City Ballet
30 Musical Theatre Spring Concert
Presented by Nolte Academy

JUNE
4 Spring Serenade
Presented by Orchestra Iowa
16–18 Disney’s The Little Mermaid
Presented by City Circle
25 2017 Change of Seasons Party
Presented by City Circle and Young Footlighters

JULY
10 The World Famous Glenn Miller Orchestra
21–23 The Music Man, Jr.
Presented by Young Footlighters
26–27 Corridor Broadway Bootcamp

AUGUST
3–7 Summer Intensive Showcase
Presented by Nolte Academy
17–20 James and the Giant Peach
Presented by Nolte Academy

TICKETS FOR MOST EVENTS ARE AVAILABLE AT

SUMMER 2017
Planning for a pest

A DestruCtive Pest
Emerald ash borer (EAB), a tree-killing pest of ash trees, was confirmed in Coralville in early 2017. The small, metallic green beetle, which is native to Asia, arrived in the eastern United States in 2002 before moving to the Midwest through firewood, sawmill logs, and nursery plants. As of April 2017, emerald ash borer has been confirmed in 45 counties in Iowa.

Ash trees within fifteen miles of a confirmed EAB site are at risk. Ash trees typically die within two to five years of becoming infected with EAB. Following patterns in the Midwest, Coralville can expect to lose the majority of the ash tree population.

The Future of City-Owned Ash Trees
Coralville has approximately 300 City-owned ash trees in parks and streetscapes. In advance of emerald ash borer’s detection in Coralville, the Parks and Recreation department began looking at options to mitigate the economic, aesthetic, and environmental impact that communities in the eastern United States experienced with the destructive pest’s arrival. In 2015, the City began proactively planting alternative tree species to increase the diversification of Coralville’s “urban forest.” In 2016, the City embarked on a five-year period of removing 100 ash trees identified as declining or structurally poor. In April 2017, the City Council approved a five-year emerald ash borer response plan to mitigate the spread of emerald ash borer in public ash trees through ash tree treatments, removals, and replanting efforts to diversify Coralville’s urban forest.

Tree trunks in treatment to attract approximately 200 eligible City-owned ash trees in City parks and streetscapes began in spring 2017. These sealed injections are a preventative measure to prolong the life of the ash tree; about 100 of these trees will be candidates for retreatment in 2019, and 50 in 2021.

City-owned ash trees in parks and streetscapes will be monitored, and those that succumb to EAB will be removed, followed by planting new trees.

If You Have an Ash Tree
Property owners are responsible for removing or treating ash trees on their own property, including their yard. On private property, if the City identifies a dead, diseased, or dying tree, or if a tree poses a safety risk, the property owner is given notice to remove the tree at their expense. Planting a tree in the right of way requires a tree planting permit. If an ash tree was planted in the right of way with a permit, the City will remove the ash tree if it is dead, dying, or diseased. If an ash tree was planted in the right of way without a permit, the property owner will be notified that the ash tree must be removed at their own cost when it is dead, dying, or diseased.

Learn more
A copy of the City’s emerald ash borer response plan with a map of the City’s ash trees, as well as information about ash tree identification, emerald ash borer symptoms, removal of trees in the right of way, homeowners’ responsibilities, tree selection, and frequently asked questions are available at www.coralville.org/americanashborer. For more information, please contact, Sherri Proud or Alex Buhmeyer Coralville Parks and Recreation Ph. 319.248.1750.

Sewer Rates Change July 1
The rate changes were approved by the City Council following a review and public hearing for the budget for the fiscal year that begins on July 1.

- Monthly Sewer Rate
  - Until June 30, 2017
  - Effective July 1, 2017
  - First 200 cubic feet $9.85 $11.15
  - Each additional 100 cubic feet $3.18 $3.60

The sewer rate increase allows the City to continue to build resources to finance a significant planned sewer treatment plant project, designed to accommodate Coralville’s growth for the coming 20 years. This project will be permanently financed in Fiscal Year 2020.

Coralville responds to Emerald Ash Borer
Proactive strategy aims to lessen environmental impact; property owners encouraged to make plans for their ash trees

The Coralville Connection is published quarterly to keep the citizens of Coralville, Iowa, informed. If you have comments or concerns, please contact us at 319.248.1700 or jcoleman@coralville.org.
Coralville 2017 Commemorative Pin
$3 each
Available at City Hall while supplies last

Near the intersection of 12th Avenue and 5th Street—just a stone’s throw from where the Coralville Public Library now stands—one stood a towering screen at 1301 5th Street that peppers the memories of many long-time Coralvillians.

The fan shape of the Coralville Drive-In Theatre lot can be seen in aerial photos from the 1950s, 1960s, and 1970s. When the theater came to town, as the story goes, investors named it the Iowa City Drive-In Theatre, and later it was known as the Coralville Drive-In.

Investors included Myron Blank of Central States Theatre Corporation, the largest operator of drive-in theaters in the country in the 1950s (Blank, who was credited with introducing popcorn as a movie theater snack in the 1930s, is known for his philanthropic efforts in Iowa including Blank Children’s Hospital and the Blank Park Zoo in Des Moines, and the Belin-Blank Center at the University of Iowa).

Local lore about the theater includes showings of Patton, John Wayne movies, beach party genre flicks, and 1960s sci-fi—along with a memorable 4th of July fireworks display and specials including dusk-to-dawn night, hot dog night, dollar night, and carload night.

The theater closed in the early 1980s.

<tr>
<th>Monthly Sewer Rate</th>
<th>Until June 30, 2017</th>
<th>Effective July 1, 2017</th>
</tr>
</thead>
<tbody>
<tr>
<td>First 200 cubic feet</td>
<td>$9.85</td>
<td>$11.15</td>
</tr>
<tr>
<td>Each additional 100 cubic feet</td>
<td>$3.18</td>
<td>$3.60</td>
</tr>
</tbody>
</table>

The sewer rate increase allows the City to continue to build resources to finance a significant planned sewer treatment plant project, designed to accommodate Coralville’s growth for the coming 20 years. This project will be permanently financed in Fiscal Year 2020.

**Water Report Available Online**

Coralville’s annual Consumer Confidence Report from the Coralville Water Department is available at [www.coralville.org](http://www.coralville.org/). Portions of each report are available by request at [waterreport@coralville.org](mailto:waterreport@coralville.org) or 319.248.1770.

**Sewer Rates Changes**

The rate changes were approved by the City Council following a review and public hearing for the budget for the fiscal year that begins on July 1.
