North Cedar Recycling offers our customers a secure, trusted and cost effective process for all their sensitive material.

As a member of the National Association for Information Destruction (NAID), we are certified to properly handle your sensitive documents.

By relying on North Cedar Recycling as your secured destruction disposal provider you will save time and gain peace of mind, while meeting your company's recycling goals.

# Guaranteed DESTRUCTION

North Cedar Recycling offers a secured facility in which our customers can trust that their material is handled properly.

The books are delivered to our facility where the spines and covers are removed so the inside of the books can be baled and sent to a mill to be re-pulped and made into new paper. The spines and covers are then shredded, baled and also sent to a mill to be recycled.

With this process 100% of the book is recycled leaving no waste to be sent to the landfill.

North Cedar Recycling can provide you with a certificate of destruction for every load we process. We guarantee all materials will be completely and securely destroyed by our company with specialized skills and equipment.
