

Branching Out

Choosing the Right Tree

When choosing a tree for your yard, look around your neighborhood and choose a tree species that is not overused. It's important to have a variety of tree species in our community. Select a tree that adds to a diverse tree canopy instead of matching existing trees. Don't see your favorite tree listed for this program? Staff have selected hardwoods that thrive in Coralville and that currently do not have a pest of concern. You may not see your favorite tree species on the list because there is a concern for a pest that has started to deteriorate that tree population. You may also not see certain species offered because it is overplanted in Coralville. We hope to increase diversity of trees.

Branching Out Order Form

Complete the form and mail or bring with payment to Coralville Parks and Recreation, Attn: Sherri Proud, 1506 8th Street, Coralville, IA 52241.

Or, order online at www.coralville.org/branchingout

Deadline to order is March 21, 2021.

Trees are not under warranty. Trees will be inspected upon delivery by parks arborist. Trees that do not meet standards will be rejected.

Tree purchase program helps property owners green up their yard, or donate a tree for Coralville's parks

Trees provide shade and beauty, clean the air, and provide habitat. Coralville's tree population has been hit hard from August's derecho and from emerald ash borer. There's never been a better time to plant a tree (or two or three).

BUY A TREE FOR YOUR YARD OR OUR PARKS

Residents can participate in Branching Out, the City's tree purchase program this spring. The City has partnered with a reputable nursery to purchase a large order of hardwood trees. Coralville residents may order a tree for their own property or donate a tree to the park system through this program. Trees donated through this program will be recognized in the summer Parks and Recreation Activity Guide.

Trees will be delivered to the Parks Shop, 900 10th Street, in late April. Branching Out participants will have four days to pick up their trees. Your new tree will include planting information and a staff member will be on site at pick up to answer questions. Trees are 1.5" caliper and will be potted. The trees should be planted soon after pick up to ensure best growing conditions.

The Branching Out program is for trees in yards, lots, or park areas, and a tree planting permit is not required when buying and planting a tree through this program. Learn more about the Branching Out program at www.coralville.org/branchingout.

The Branching Out program is not for planting trees in the right of way (the public space between the sidewalk and the street curb). Trees planted in the right of way require a Right of Way Tree Planting permit and inspection. For information regarding planting a tree in the right of way, go to www.coralville.org/trees.
